## American Safety Paper
### Manufacturing Company of N Y.

**Capital $500,000.**
A NICHOLAS President Office 70 Wall st

*A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits Erasures Printers or Alterations*

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America invented and patented in England by HENRY GLYNN a celebrated chemist and officer in the British army it is hardly necessary to say that the Paper is recommended by Mr Kent Assayer of the U S Mint Mr Lyman of the New York Clearing House and Meade Brothers extensive and skillful photographers 233 Broadway N Y The latter say that no imitation can be made on a check or bank note printed on the Safety Paper Below is our list of prices

Bank Checks—35 cts per lb
Bank Bills—$18 for 1000 sheets
Bills of Exchange—$25 for 1000 sheets
Promissory Notes—40 cts per lb
Sight and Time Drafts—$25 for 1000 sheets
Insurance Policies—40 cts per lb
Railroad Stocks and Bonds—40 cts per lb
Bank and State Stocks—40 cts per lb
Bonds and Mortgages—40 cts per lb
Wills and Deeds—40 cts per lb

For wrapping Silks and other fine articles it is excellent as it prevents moths 40 cts a lb

For Indentures and Agreements 40 cts a lb

All State and County Records should always be printed or written on this paper as the chemicals inserted in the pulp not only prevents erasure or transfer but makes it lasting as time

For Southern climates it is excellent and much superior to any other as the moistness of the climate does not destroy it —the properties inserted in the pulp being a preventive In all the Southern States Cuba the West Indies and the Central American States no public records can be kept over 20 years written on the ordinary paper while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time It is also proof against moths rats and other vermin, which feast on and destroy all other paper now in use

The Company have now in operation Mills in Morris County N J of about 300 horse power, and are able to fill all orders for Paper at the shortest notice

All orders for the Paper must be addressed to A NICHOLAS President of the Company No 70 Wall street New York

## The Duties which Remain to be Done.

Two weeks only remain before the State election The Republican town and district committees should devote this time faithfully to the work of completing their organizations and in preparing to secure a full vote of the party This is an essential work, and one the neglect of which cannot be excused.

The Republican majority of the voters of the State is fully as large as it was last year We have yet to see the man who, having voted for freedom in 1856, intends to go for slavery in 1857 On the contrary, there are many, who have heretofore voted with the enemy, either as democrats or Straight Whigs, who, we are satisfied, will this year vote for the principles which have always been nearest their hearts rather than for the names of dead and gone parties The Straight Whigs have this year given up all attempt at organization and a portion at least of the small body of last year's Fillmore voters will this year vote with the Republicans, as we believe—enough at least to make good any possible changes against us from personal motives

The principles of the Republican party are more strongly rooted than ever in the hearts of the people—and no party which so utterly contemns those principles as does the modern "democratic" can possibly command the voice or a majority of the freemen of Maine All the remembrances of our fathers' struggle for freedom forbids such a supposition Let the Republicans but go to the polls, and a victory such as they owe to the cause is again before them No real strength of the enemy can prevent the achievement of such a victory — The pro slavery party in this State is weak,—and demoralized and divided at that. Were it not for the plunder at Washington it would have no leaders, no intriguing managers, and no organs to lie for it and to deceive a portion of people into a continued support of the name of "democracy. Were it not for this federal patronage which the slaveholding interest has for years past used to maintain a party of "natural allies" at the North, there would, in fact, be no democratic party at the North And as it is, this very plunder—these custom house appointments, and this federal patronage of fat contracts and almost as fat advertising, having first united the office seekers, has now become the means of dividing and rending in sunder the ranks of the false democracy The cohesive power of public plunder relaxes essentially after the distribution is completed—and our opponents are just now in the delectable position of a family of pigs quarrelling over the dispensation of their supper There are already open quarrels in more than one custom-house precinct

We say the Republican party cannot be beaten in Maine by any strength of the enemy, however the organs of sham democracy may prate about the beauties of "unionism," or attempt to lie about accessions which never have and never will take place. Let our friends be but true to themselves and to their duties to the cause, and they are sure of a noble victory These duties include a reasonable effort, with the use of all proper means, to insure a good attendance at the polls—and these efforts should at once be prepared for. There is no time to lose.

During the past week, the Republicans have made nearly all their county and Senatorial nominations The tickets are composed of able and worthy men, and of those who are honest and earnest friends of the Republican cause, and good representatives of the political sentiment of the people of Maine. With such local tickets in nomination, and with a standard-bearer so able, so true and so noble-hearted as him whom we have nominated for the Chief Magistracy of the State, the Republican cause should be certain of another glorious victory in Maine, and will without doubt achieve it.

The Republicans of Maine in fact owe it to their brethren of the Union, to throw such a vote at the coming election as will demonstrate the earnestness of the faith that is in them, and show to the enemies of freedom that our party is not one of a day—but that, like our revolutionary fathers, we have enlisted for the war, and shall not lay down our arms till "Liberty and Union" are finally triumphant, upon that broad basis of human right which our fathers intended should form the foundation of our Republican government.

## The Democratic Organs against Emancipation.

The Editor of the Bangor Union is exceedingly anxious to prove that slavery is still impregnable in Missouri. He swears by all his gods that emancipation was *not* an issue in the recent campaign—and tries to prove by a whole column of figures that freedom did *not* make any advances in the election, and that slavery is still strong, vital and enduring as ever in that State. Now, even admitting the soundness of his inferences from the figures given—admitting, (what is not true) that the facts in regard to the Missouri canvass and election have not shown that gratifying progress of freedom and humanity which the northern people hoped and believed—the inquiry naturally arises why should this democratic organ be so anxious to prove it? Why this feverish desire to prove that despotism and a disregard of human rights still rules and is likely to rule forever in the South, and through the Southern Democracy still to control the administration of our National government? Why does the Union expend so much time and space to prove that emancipation (*gradual* emancipation, be it remembered—not immediate abolition) is NOT gaining ground in Missouri, and that consequently all the glorious hopes that freedom is gradually overcoming slavery in the slave States themselves are doomed to be disappointed? The "democratic" organs here at the North have heretofore *professed* to be favorable to freedom, and to desire the extinction of slavery, provided it could be brought about by the action of the slave States themselves. While denouncing northern abolitionists and Black Republicans, and denying that the northern States have any right to interfere with slavery even in the Territories belonging to the whole Union, they have nevertheless said that any movements for emancipation by the Southern people themselves would meet with their approbation, and that they would hail with rejoicing any results in favor of freedom *thus* brought about. But what do we see when a movement of this kind is inaugurated by the people of a slave State? Does the Bangor Union rejoice in it—hope for its success—endeavor to encourage and sustain the friends of freedom in Missouri by exhibiting a generous sympathy with them and an expressed hope for their success on the part of northern democracy? Not at all. It forthwith resorts to figures to prove that there is in fact no emancipation party in Missouri, or at least that such a party has made no progress there in the late election, and that the vote for Mr. Rollins is no indication of the extent of emancipation sentiment

What are the people of Maine to understand by this? Is the Bangor Union, and the sham democratic party whose organ it is favorable or adverse to emancipation in Missouri? If the organs of that party really desired to see slavery abolished, even gradually, by the action of the slave States themselves, would they comment as the Union has done upon the result of the Missouri election? Would they thus exert themselves to prove that the emancipation party gained nothing there in the late canvass? We think not. On the contrary, they evince a bitter enmity—an utter hostility—to emancipate anywhere. Their comments show that they regard slavery to be the chief corner stone of the modern democratic party—and their strong perception of the fact that upon the continued existence of slavery and the prevalence of the slave power in our national politics, depends the very life of modern democracy.

As to the *facts* in regard to the Missouri election. The friends of freedom do not claim that the vote for Rollins was entirely an emancipation vote. They do not even claim that Rollins himself is an avowed emancipationist. But Mr. Rollins *has* declared that he would consider emancipation an open question in Missouri, and that he would bow to the decision of the people upon it. He has recognized the question *as* a question before the people This is regarded by the friends of freedom, both in and out of Missouri, as an important step in advance of the recent prevailing sentiment of the State, when emancipation was not even permitted to be generally discussed For this reason Mr. Rollins was supported by the friends of free labor. He was openly declared to be the candidate whom they would generally vote for, although he did not come fully up to their mark. Under these circumstances, the fact that the regular democratic and pro-slavery candidate opposed to Rollins was barely elected by two or three hundred votes in a poll of a hundred thousand, when the other Southern States were going by vast majorities for "democracy," is justly considered a most glorious indication that the emancipation party is strong and growing stronger in that important bulwark of slavery, the State of Missouri.

The eight principal paintings in the rotunda of the Capitol cost the government ten thousand dollars each. Greenough's statue of Washington, situated in the eastern garden of the Capitol, cost twenty-five thousand dollars. This statue was executed in Italy, and was brought to this country by the U. S. ship Ohio, it having been difficult to find a merchant vessel able to carry it. It was first placed in the rotunda of the Capitol, but was afterwards very properly removed to its present position.

## The Piscataquis Convention.

The Republican Convention for Piscataquis County, held at Dover on Saturday, was very large and enthusiastic, notwithstanding the heavy rainstorm which prevailed throughout the day. The hall was overflowing with people—there being at least 1000 present besides a full regular delegation—and all animated by the same earnest and zealous spirit for the cause of freedom which produced the glorious triumphs of last year

The Convention nominated the following candidates.

*For Senator*—Charles P. Chandler of Foxcroft, for re-election.

*For County Treasurer*—E. J. Hale of Foxcroft. Mr. Woodbury declined a re-nomination.

*For Register of Deeds*—Dr. Joshua Jordan.

*For Co. Commissioner*—Aretas Chapin of Monson.

*For Judge of Probate*—Jesse Stevens of Sebec.

The Convention was eloquently addressed by Hon. Israel Washburn, Jr and by Messrs. Norris of Skowhegan, and Lebroke of Foxcroft.

## Judge Cato's Letter.

The Age *insinuates* that the letter of the ruffian Judge Cato, of Kansas, which we published last week, is not wholly genuine, though it *dares* not directly impeach its entire correctness. We published it *line for line and letter for letter*, just as it originally appeared in the St. Louis Democrat and Chicago Tribune, two of the most reliable papers of the West. The Age *knows well* that the following passage was in Cato's letter.—

"I AM SATISFIED THAT THE LAST LEGISLATURE INTENDED TO MAKE NO FURTHER CHANGE, LEAVING THE PAYMENT OF A TERRITORIAL TAX AS AN INDISPENSABLE PRE-REQUISITE TO THE RIGHT TO VOTE AT OUR NEXT GENERAL ELECTION."

That the freemen of Kansas should be compelled to pay taxes imposed by the Missouri ruffians and pirates, before they can be allowed the sacred American right of franchise, is an infamous and diabolical outrage. The Age keenly feels this, and tries to prevent the people of Maine from knowing that its party is guilty of such despotism.—*Ken. Journal.*

A SPECULATION THAT DIDN'T PAY. A sheep drover went to Michigan a few days ago, and picked up a fine drove of several hundred sheep in Macomb county for the Eastern market. In passing through the town of Utica, a farmer's flock to the number of over 60 were careless enough to "mix in," without the consent of their owner, with the drove bound for Detroit. The drover being in a hurry to reach Detroit by a certain time, to secure passage on board an Eastern boat to Buffalo, did not think it advisable to stop and separate the volunteers from the "regulars," supposing they might separate themselves rather than go away from home among strangers. They did not, however, and the farmer, their owner, soon found out what was going on and following up overtook them just as they were entering the city. He intimated rather plainly to the drover that his conduct might subject him to suspicion of sheep stealing, and that he had better settle the matter before leaving the State. The drover saw how the matter stood, and coincided with the farmer's idea. He was ready to buy the volunteer sheep! The farmer set his price on some of the choice ones, as high as $25 each. He sold the whole flock, took his money and returned home, while the drover went East, thinking some flocks of sheep were deuced dear out in Michigan.

The spurious wines of Oporto, recently seized by the Portuguese government, were made of molasses, alcohol and some coloring substance. Thousands of pipes of this mixture have heretofore been sent to England, to the Continent, and elsewhere. The wine lately confiscated in Paris was made of water, alum and alder-berries.

The Atlantic Telegraph cable seems to have snapped in consequence of the enormous weight of the portion which had been paid out but had not yet reached the bottom.—Miles of the cable, which was running out at a much faster rate than that of the ship, and into water two miles in depth, acted as a dead weight, and drag of almost irresistible force. A firmer application of the brakes was intended, by diminishing the rate at which the cable was running out and thus lessening its weight, to prevent the catastrophe which it in fact hastened.

THE FORT SNELLING SALE. A most intelligent citizen of the far West, who knows the value of property there, in a letter of the 23d inst. says:

"The most stupendous swindle of the age is the recent stealthy sale of Fort Snelling to a clique of Administration politicians, for the paltry sum of $90,000. The property is worth $2,000,000, and would have brought nearly that sum to the Treasury by an open fair sale.

---

THE OHIO LIFE AND TRUST. The affairs of the Ohio Life and Trust Company are still uppermost in the public mind. The officers and clerks are busily employed in ascertaining the exact state of the accounts, but this will require time. The proximate liabilities of the concern are stated at $3,700,000. The loans necessary to sustain this burthen have weighed on the market, we are told, for months past. From a million to a million and a half has been constantly absorbed in this single channel, and the withdrawal or cessation of it, is more likely to give ease to the market than to add to its stringency.

It now appears that apprehensions have existed in some quarters for several weeks, that the company was becoming embarrassed. In one case, a bank officer gave peremptory orders that its checks should not be received without certification.

The accounts of the Cincinnati office are said to be in good order, and within themselves unembarrassed. This is doubtful. The connections with this city are to intimate and dependent to admit of any part of the concern being sound.—*N. Y. Evening Post.*

## LOCAL AND MAINE NEWS.

A GREAT FALL OF RAIN. The amount of rain which fell during the storm of Friday and Saturday last, as shown by the rain-guage of Hon. E. L. Hamlin, was 3¼ inches. On Saturday night and Sunday previous 2½ inches fell—making nearly six inches within one week—or about one sixth of the whole *annual* average in this section. The wetness of the season must operate injuriously upon the potato crop. The disease has not, however, manifested itself to the extent which would naturally be expected in such a season, and this fact is encouraging, in its relation general to the potato blight. If the season had been ordinarily dry, the disease would not probably have been seriously developed.

MORE CATTLE. A drove of 80 head of different grades of cattle passed through the city yesterday, on their way to Scarboro' and a market. They were collected by Messrs Samuel and Wm. Warren, in different parts of Hancock County. With present prices of cattle, Maine will soon become one of the greatest grazing States, as it ought to be.

A MAN PICKED UP. Yacht Minnehaha, of Bath, returning from a pleasure excursion, in passing Seguin ledges, a man was seen on them waving his hat. The yacht was put about and soon came upon a boat bottom up, with a man on it, Mr. Taylor, of Bath. It seems that Taylor and a man named Tibbetts were bound on a fishing expedition, but getting a supply of rum they agreed to drink it before attending to anything else. Tibbetts got laid away soon in the bow of the boat, and Taylor's sight grew foggy and he let the boat go among the breakers and upset, rolling Tibbetts out, who, roused by the ducking, swam ashore. So says the Bath Tribune.

BROKE JAIL. We learn that a prisoner by the name of Crocker broke jail at Paris on the night of the 25th inst. He was committed for rape, and for some time past has been under the care of a physician, who supposed him to be on the last stages of consumption and had given him over as incurable. On the evening prior to his escape he told his nurse he felt better and should not probably need his attendance *all night*. The nurse supposed him to be better, and left him some two or three hours. On his return the bird had flown to parts unknown. Verily, the judgment of physicians, and nurses, too, is sometimes sadly at fault. We believe this is not the first dodge of the kind in that same old prison.—*Norway Advertiser.*

THE STEAMER DIRIGO. This steamer arrived in the city yesterday morning for the purpose of taking on board such of the apparatus for raising the Steamer Canadian, now sunk in the river St. Lawrence, as has not already been sent on to the ground

The Dirigo was out all through the late heavy storm and has certainly demonstrated that she is a good sea boat. She was in the vicinity of Monhegan all day Saturday and a portion of Sunday.

Her boilers have been undergoing alterations in Boston, and it is now thought she is well fitted for the service for which she is destined.

Mr. Bartlett has already about thirty men at work on the Canadian—and by the aid of diving apparatus they have discovered that the bottom is favorable for the project. Mr. B. thinks that in forty days after the Dirigo gets on the ground, he will have the Canadian in a safe place to be repaired

The lifting apparatus of the Dirigo seems to be remarkably strong and perfect From the bow extend two massive beams to support the weight, and the masts, from the top of which the purchase is fastened, are to be firmly fastened back to the stern part of the keelson by means of very heavy iron rods. With this it is thought she will be able to hoist a much greater weight than will be required. The hoisting blocks are of iron and made for eight ropes, making the purchase very great.

She carries a portable steam engine for pumping or any other purpose for which it may be required.

The "Dr. Kane," the vessel that took around a large portion of the heavier portions of the machinery, lumber, &c, has not yet arrived there, although she has been out nearly two months, causing great inconvenience and delay.

The Dirigo will probably be ready to sail for the St. Lawrence the latter part of this week. She will be there, with good luck, in eight days, and then operations will at once commence in earnest.

Mr B. intends to finish this job, and leave the river before the ice sets in, so as to commence operations upon the City of Philadelphia early in the spring or following summer.

A TALL BLACKBERRY BUSH.—Mr. Beriah Mann of Holden left in our office yesterday a native blackberry bush from his farm, which, for the length of its stalks and the amount of fruit produced upon it, beats everything we have seen in that line. There are two main stalks, about of a length,—the longest measuring *twelve feet and two inches*. As to the fruit, Mr. Mann tells us that he picked two quarts of ripe berries from the bush, and there are now an equal quantity of green ones upon it, besides a liberal amount of ripe fruit which was left for our benefit, but which is *not* now upon the bush.

The Penobscot river has risen five or six feet at Oldtown, in consequence of the rains within the past ten days.

☞ We are requested to state that persons attending the Universalist Association at Oldtown to-day or to-morrow will be carried in the cars for twenty-five cents each way.

LARGE POTATOES AND A GOOD YIELD. Rev Mr. Battles of this city recently dug in his garden, more than half a bushel of Jackson potatoes from six hills. One of the potatoes weighed over a pound.

### Disaster to Steamer Illinois.

NEW ORLEANS, Aug. 30.

The steamship Empire City has arrived from Key West. The steamship Illinois, from Aspinwall, with 500 passengers and $1,600,000 in specie, would leave Havana for New York on the 30th inst. She had been on Colorado reef, 70 miles west of Havana, for three days, but after throwing off two hundred tons of coal, she got off without injury. She was hauled off by the steamer Empire City, assisted by the war steamer Benico De Grey.

The Illinois will be due at New York on Wednesday of this week.—*Tel. of News.*

THE BREAKING OF THE TELEGRAPH CABLE. A writer in the *National Intelligencer*, a few days since, in giving some reasons for his belief that the attempt to lay the submarine cable would be a failure, said:

"In the first place, the soundings that have been taken are probably the least satisfactory portions of the whole undertaking. They were taken by the navy, the coast survey, and by the telegraph company, and there are great discrepancies, and they do not dovetail with each other in any reasonable degree. In crossing the Atlantic on the usual route to and from Great Britain, 'colored water' is frequently met, indicating soundings at no great depth, but extending over a comparatively small surface.

Nothing is known as to the form or material of the sides of these submarine mountains.—They may be very precipitous and very rugged; so steep where they decline down into deep water of two or more miles, that the telegraphic rope will not accommodate itself to the side, and may therefore remain suspended in the water, for a long distance, from the crown of the sea mountain to the bottom of the deep ocean, or they may be of so rugged and hard a material that the slightest motion of the rope from the movement of the water, would chafe it through. There may be, and probably are, deep chasms at the bottom of the ocean, where the telegraphic rope will not accommodate itself to the steep sides, and where it must remain suspended across the aparture for a long distance, unsupported by the bottom. The general inequalities of the ocean bottom, to say nothing of the numerous accumulations from foundered vessels for centuries, such as anchors, guns, stone ballast, and the indestructable portions of cargoes, must add to the dangers as to the durability of so small, and comparatively, so frail a cord.'

The Boston *Journal* says

"There is every reason to suppose that the bottom of the ocean is as uneven as the land, and we have never seen a sufficient reason given for the belief that there was a continuous plateau between Ireland and the coast of Newfoundland. It is highly probable that in paying out the cable it found a resting place upon the top of some submarine mountain, and that, checked in its rapid descent into the valley below, the cable snapped from its own weight. In the account of the accident it is stated that 'the engineer found the cable was running out in too great proportion to the speed of the ship, and considered it necessary that the brakes be applied more firmly.'"

MARRIED BY CHANCE.—The Count de M—— lived in a state of single and independent blessedness. He was yet young and very rich, and surrounded by everything that could give enjoyment to life, except a wife. He had frequently thought of becoming a husband, but had always declared off before the knot was tied. Once he found himself nearly committing the folly of matrimony. A young person, the daughter of one of his friends pleased him; her fortune pleased him not less, perhaps, than her person and accomplishments, and there were other reasons of convenience, to justify the union.

The Count, who had so frequently made the first step towards matrimony, but as frequently drew back, had not yet decided upon the course he should adopt in this case—he had made no outward sign of performance His future mother-in-law, however, knowing his weakness in this respect, resolved to bring matters to a termination, and, therefore, demanded of the Count whether he would not marry her daughter, and requested an immediate reply. At this moment his fears and hesitation returned with more force than ever, he trembled for the consequence.

To give up his cherished habits of bachelorhood, he found was hard—it was almost impossible to abandon them. In this emergency he appealed to chance. He wrote two letters, in the one he accepted the hand of the lady, in the other refused it. He then put them in his hat, and called the servant

"Take one of those letters," said he, "and carry it to the Chateau de ——."

"Which, sir?"

"Which you please"

The servant chose a letter. The Count burnt the other without opening it.

A distance of ten leagues separated the two chateaus. The domestic must be absent twenty-four hours, twenty four hours must elapse before the Count know his fate. His situation is anything but agreeable, he knows not, during that time, whether he is a married man or a single one—whether he has still the power to dispose of himself, or whether he is already disposed of. The domestic returned. Be had carried the letter of acceptance, and M. de M—— is, even at this time, the happiest husband in that part of the country.

### Later from Europe.

NEW YORK, August 31.

The steamer Atlantic arrived yesterday—No decision had been made regarding further attempts to lay the submarine cable the present season, a meeting of the directors was being held on the subject the day the Atlantic sailed.

The crops in England were damaged by by storms, but succeeding good weather, probably counteracted the effect.

Sugar is dull and 6d to 1s lower, flour and wheat had slightly advanced; corn was dull; the other markets were generally unchanged.—*Tel. to News*

### A Thousand Miles a Minute.

BY A. H. BULLOCK

'The motion of the earth around the sun is at the rate of sixty-eight thousand miles an hour."—COMSTOCK

Sixty-eight thousand miles an hour!
Why man, the deuce is in it,
What matchless proof of mighty power—
A thousand miles a minute!
This woudrous car keeps rolling on
With all its land and ocean,
The engineer is never gone
Nor varies in his motions.

No "running fast" no "running slow,"
No bursting of the boiler,
Nothing to pay, of all who go
No one e'er gave a dollar.
No upward grade no downward grade,
No stopping at the station,
Cause for to repair has not been made
Since the All wise creation

Since time began, ne'er left the track
Or called for wood or water,
No switching off, no running back,
Collisions cause no slaughter
Because the track is always clear,
The watchmen never slumber,
No train behind we ever fear,
Obstructions ne'er encumber.

The signal lights we oft descry
But no alarming token,
They glitter in the evening sky
And dance with joy unbroken.
No application of the brakes,
Reversing of the motion,
No fear of telegraph mistakes,
No sound to mar devotion.

So silently the vast machine
Obeys the laws of Heaven,
The movement is not felt or seen,
No jar or tumult given.
"Through tickets" only can we have—
No other to be taken
Whether we live or fill the grave
The motion will not slacken.

But takes us on with lightning speed
Until we reach that station,
Which stands, says Faith and Hope agreed,
At portals of salvation.
"Free pass" each traveller awaits
Observing rules to win it;
Soon we shall reach those pearly gates,—
A thousand miles a minute!

THRILLING ESCAPE. Very early yesterday morning, a man was discovered from the street asleep, in the roof-guttering of a house on Broadway, between Jefferson and Madison streets. The discoverer was a farmer coming in his wagon to market He had much difficulty in getting into the house without breaking in. The wife of the roof-slumberer finally admitted him, and was terrified on learning the perilous situation of her worse half She implored the farmer to rescue him. The roof was an angle of about thirty-five degrees, and to descend it was deemed hazardous to the sleeper. A ladder was therefore hurriedly procured, and the snoozer shaken out of his sweet repose. He was terrified beyond measure at the extraordinary circumstances of his returning to consciousness. The explanation of his situation is, that he had lain down in the garret on a grain shelf at a level with the scuttle opening. The shelf was movable, and he had drawn it to the scuttle before composing himself to sleep. The miracle of his decent without waking, and without sinking into the deeper sleep of death, he should credit to Providence.—*St. Louis Democrat 21st.*

## SPECIAL NOTICES.

## ☞CATARRH.

What is this disease? Where is it located? What is its cause, character, symptoms and results? Every Medical Book should have given a truthful answer to these questions long since Every physician should be able to give them now But it has never been pathologically understood—only guessed at, and therefore was never cured. Eminent physicians, both in America and Europe, have declared, that "a remedy for Catarrh was never yet found"

This assertion is an error A Remedy has been found, and it can be cured, because the disease is now understood The Errhine, prepared and now offered by Dr E Goodale, of New York, is, beyond captious doubt or controversy, a positive and radical cure in any stage or condition of it A trial of it, according to directions given, will sustain this assertion

# TELEGRAPHIC

*TO THE DAILY WHIG AND COURIER*

OFFICE OF THE ASSOCIATED PRESS, N Y 31

*To the Editors of The Courier Boston, Post Providence* In reply to what I must think your most ungenerous and unfounded charges of Saturday against our telegraphic reports, I beg to say that the list of failures as their names have appeared in the Independent of this city, have been very extensively copied by other papers in this city and throughout the country, not excepting even the Boston Courier We have never sent the full list to the Boston papers before last week, for the reason that we did not deem the news of sufficient interest, and we yielded our own judgment in the matter last week at the request of some of the oldest and most respectable members of the Boston press I do not wish you the misfortune to be reduced to the position of a general telegraphic news correspondent, but if that misfortune should ever befal you, you will speedily ascertain that it is a deuced difficult matter to make up reports that will please everybody Respectfully, &c,
D H CRAIG,
General Agent Asso'd Press

WASHINGTON, August 31

Capt Hudson commanding the U S frigate Niagara, in communicating to the Navy Department the particulars in regard to the accident to the Telegraph Cable, says he has every reason to believe from what has thus far experienced in wire laying that under ordinary circumstances of weather and with machinery adapted to the purpose (for such as they had on board requires altering and improving) the cable may be laid in safety on the track marked out for it in the Atlantic Ocean He says at the time the cable parted the company's Chief Engineer Charles T Bright, was attending their brakes to lessen the expedition of cable, until it was finally carried away which made all hands throughout the day feel like a house hold or family which had lost their dearest friend, for officers and men had become deeply interested in the success of the enterprise

NEW ORLEANS 31

GREAT ROBBERY OF NEW ENGLAND BANK NOTES—$50 000 *worth of Spurious Bank Notes in Circulation* Under this heading the Boston Evening Mirror publishes the following

Some weeks ago a great robbery of bank notes was perpetrated in this city, but for some reason of which we are not informed, the affair has been withheld from the daily press We get our information from persons employed in the establishment where the robbery was committed and the facts stated can be relied upon The story is thus

The New England Bank Note Company, No 204 Washington street of which Isaac C Carey Esq, is proprietor does all the note printing and engraving for most of the banks in New England This establishment employs about a dozen workmen and through their hands at least $500 000 each day Two copies of each bill are taken, one to be kept as a sample or to replace any spoiled bill, and these extra copies have been placed in a drawer by themselves

Recently the foreman discovered that $6000 in bills on an eastern bank were missing from a shelf near this drawer and then found that the drawer itself was unlocked and rifled of its contents, amounting to between $50,000 and $100 000 in unsigned bills of various New England banks, which had been accumulating for years

[The Boston Journal thinks this statement an exaggerated one It is said, however, that some of the bills have already come back from the banks—the Charles River Bank for one—with signatures so nicely counterfeited as to have passed the Suffolk without detection—They were redeemed by Mr Carey ]

## STEAMERS.

## California Steamers,

**Carrying the United States Mail.**

5th and 20th of each month.

Greatly Reduced Prices. 50 lbs. Baggage Free.

*Through Tickets, including transit of the Isthmus, via. Panama R. R.*

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only* line giving entire Through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage without any detention on the Isthmus.

*N. B. Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama*, and tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. C. L. BARTLETT, Agent,
No 16 Broad Street, Boston.

## Portland to Boston.

## Summer Arrangement.

The Steamers LEWISTON, Capt. Geo. Knight, and the FOREST CITY, Capt. F. A. Prince will run as follows:

Leave Atlantic Wharf, Portland, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 5 o'clock P. M.

| | |
|---|---|
| Fare in Cabin, | $1,25 |
| Fare on Deck, | 1,00 |

Freight taken as usual.

Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families, and travelers are reminded that by taking this Line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest trains out of the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value.

## Summer Arrangements.

## NEW YORK & PORTLAND.

The Splendid and Fast Steamer WESTERNPORT, *Capt. P. S. Berry*, will run regularly between New York and Portland, as follows.

Leave Brown's Wharf, Portland, *every Wednesday afternoon* at 4 o'clock, and returning, leave New York, Pier 12 N. R., *every Saturday afternoon*, at same hour.

This vessel has just been fitted up with fine accommodations for passengers, making this the most speedy, safe and comfortable route for travellers between New York and Maine.

Passage $4,50. No charge for State Rooms.

Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport, and St. John. Also, connects with steamers for Baltimore. Goods taken through with despatch, at the cheapest rates.

For Freight or passage apply to

## THE LUXURY AND PROFIT OF HONEY MAKING.

### ☞ Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are the best adapted in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

☞ For sale, fifty swarms of Bees, with the new hives.

For hives, individual rights, &c., address

NEW AND IMPORTANT DISCOVERY IN THE SCIENCE OF MEDICINE. TRIESEMAR.—None are genuine unless the engravings of the Seals of the Patent Office of England, the Seals of the Ecole de Pharmacie de Paris, and the Imperial College of Vienna, are fixed upon each wrapper, and around each case.

Sold by Dr. H. A. BARROW—Member of the Imperial College of Vienna, and Royal College of Surgeons, London, who may be personally consulted at his residence, No. 157 Prince Street, (few blocks West of Broadway) New York, from 11 o'clock in the morning till 2, and from 1 o clock till 8 in the evening, (Sundays excepted.)

TRIESEMAR No. 1—Is the remedy of general and local debility, loss of virile power, premature decay, and all the distressing consequences arising from early abuse, &c.; all physical impediments vanish like magic before its influence, thus rendering its use invaluable to those entering the marriage state.

TRIESEMAR No. 2—Entirely eradicates all traces of those disorders which copavia and cubebs have so long been thought an antidote for to the ruin of the health of a vast portion of the population.

TRIESEMAR No 3—Is the great European remedy for that class of disorders which, unfortunately, the English physician treats with mercury to the inevitable destruction of the patient's constitution, and which all the Sarsaparilla in the world cannot remove.

TRIESEMAR Nos. 1, 2 and 3—are prepared in the form of a lozenge, devoid of taste or smell, and can be carried in the waistcoat pocket. *Sold in tin cases and divided in separate doses, as administered* by Valpeau, Lalleman, Roux, Ricord, &c. &c. Price $3 each, or four cases in one for $9, which saves $3, and in 27 cases, whereby there is a saving of $9.

Special arrangements have been made with the various Expresses, the nine-dollar cases of the Triesemar, and the larger sizes, will be forwarded by Dr. Barrow, carriage paid, immediately on receiving a remittance, to any part of the world, securely packed, and addressed according to the instructions of the writer, thus securing to the public genuine European preparations, and effectually protecting them from spurious and pernicious imitations. The three dollar cases sent as usual, but not free of carriage.

## LINCOLN'S

## WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

*Keep your Feet dry and you will seldom need a Physician.*

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

**Positively wear twice as long.**

I have now used it for three years, and a large part of that time have worked in a wet Tannery; with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

## TREMONT MILLS.

**Teas, Coffees, Chocolates, Cocoas, Spices, &c.**

WHOLESALE—AND ALSO IN SMALL PACKAGES

E. E. DYER & CO.,
(Sign of the Chinaman grinding Coffee,)
*No. 8 Broad, near State Street,..........Boston.*

Supply the best, finest and purest articles, at the *lowest Cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, All spice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Taraxacum or Prepared Dandelion Root, &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely on having them *pure* and *genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO." To give consumers some idea of our sales, we annex the following scale of prices, viz:

| | | | |
|---|---|---|---|
| 5lb. Souchong Tea, | 1,75 | 5lb. Mocha Coffee, | 1,10 |
| 5lb. Oolong Tea, | 2,00 | 5lb. Java Coffee, | 1,00 |
| 5lb. Y. Hyson Tea, | 2,50 | 8lb. good Coffee, | 1,00 |

☞ The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of consumers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lbs. of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root.* This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee*," may be relied upon as the *genuine article.* The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians, to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

☞ Be careful to observe that all our Taraxacum has our trade mark—"Chinaman Grinding Coffee"—as there are many imitations of our article *called* Taraxacum in the market.

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rates.

TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock, and our prices, as compared with those of any other house.

## SUGAR COATED PILLS!

Prepared and put up by the

**New York College of Health.**

The most celebrated Medicine in the World,

*Recommended by the principal Physicians in all our Cities, and by all who become acquainted with their merits throughout the world.*

There are living witnesses, in almost every town, village and hamlet throughout the country, who unhesitatingly say, DR. SMITH'S SUGAR COATED PILLS have saved my life.

Most of the Hospitals in New York have given these Pills a preference over more than twenty other kinds that have been tested, and many eminent Physicians in the United States use them in their practice.

Dr. J. M. STURTEVANT, of Lowville, N. Y., a practical physician says "I consider the Sugar Coated Improved Indian Vegetable Pills, as an excellent medicine, and use them in my practice."

Dr. McVICAR, of Boonville, Oneida Co., N. Y., says, "Say to your Agents, I consider them an excellent Pill, and use them in my practice."

If the Blood becomes impure, it is traced to stoppage of the natural drains of the system, viz of the bowels—the lungs, kidneys, and skin—The blood and intestines must relieve themselves of all their worn out particles and poisonous humors, which must go through the channels that nature has designed.

## American & Foreign Patents.

**R. H. EDDY,**

**SOLICITOR OF PATENTS,**

*(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)*

**No. 76 State Street, opposite Kilby St.,**
BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a Patent, and the usual great delay there, are here saved inventors.

*Testimonials.*

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents.—There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

[From the present Commissioner.]

"August 17, 1855—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.
